

Hi, my name is Francine Cornejo and I am the mother of Gustavo Cornejo, Jr.

The last six years of my life and that of my family have been the most difficult of our lives. In 2016, my son, Gustavo, Jr. was a seventeen year-old with the hopes and dreams of every other teenager. Now, all those dreams are lost, they are gone. He is a completely different person. I spend most of my days taking care of him, or trying to make him comfortable, or trying to ease his pain, and have him know that he is so loved by his family.

I want to thank Clifford Law Offices and in particular my attorneys Brad Cosgrove and Jack Casciato for their hard work in seeing that justice was done. I am so grateful to the jurors who understood through their verdict what my son is going through and will be going through for the rest of his life. Although this verdict cannot make him the way he used to be, it will be such a help in the caretaking he requires for the rest of his life.

This verdict eases some of the worries of knowing that we now can continue the proper care of Gustavo, and give him the future that help he needs.

Thank you.
