STATEMENT ON BEHALF OF THE FAMILY OF ANGELA ANDERSON

The past month has been incredibly difficult. For all the other families dealing with this, we're thinking of you too. My mom was loved by many, and we're grateful to everyone who has shared beautiful memories and photos of her. Like a lot of us, she had some challenges in the past, but I know how hard she'd been fighting to overcome them. I was proud of her efforts, but am now living with the regret that I didn't tell her before it was too late. It doesn't feel real that I never will. I just wish I could see her, hug her, and tell her I was proud of everything she was working to accomplish. I hope she's looking down now knowing that she was loved by many, and that we're working to do what it takes to preserve her legacy and to reduce the chances that other families and friends and loved ones ever have to go through something like this.
